2. PRODUCTS USE RIGHTS; TITLE

2.1 Generally. Customer's purchase of Products under this Master Agreement may include from time-to-time Software, Subscriptions, Services, and/or Hardware. The following provisions under this Section 2 apply if relevant to the type of Product purchased pursuant to a Quote.

2.2.1 Software License. Subject to the terms and conditions of this Master Agreement including without limitation the restrictions set forth in Section 2.7 and Section 2.9 and timely payment of the applicable fees, SirsiDynix hereby grants to Customer a limited, non-exclusive, and non-transferable license to (i) install, run and use the Software identified in the Quote in the Operating Environment solely for Internal Business Purposes, and (ii) use the Documentation in connection with such use of the Software. Customer may not make copies of the Software except a reasonable number of machine-readable copies solely for internal backup or archival purposes. All Intellectual Property rights notices must be reproduced and included on such copies. Customer shall maintain accurate and up-to-date records of the number and location of all copies of the Software and inform SirsiDynix in writing of such upon request. **2.2.2** Unless otherwise set forth in a Quote, the Software shall not be simultaneously loaded and operated on more than one hardware platform, except temporarily during the process of platform

migration. **2.2.3** Customer shall use the Third Party Products solely in conjunction with the SirsiDynix Software and Customer shall have no broader rights with respect to the Third Party Products than it has to the SirsiDynix Software. SirsiDynix may add and/or substitute functionally equivalent products for any third party items in the event of product unavailability, end-of-life, or changes to software requirements.

2.3.1 Subscriptions. For Subscriptions purchased by Customer, and subject to the terms and conditions of this Master Agreement including without limitation the restrictions set forth in Sections 2.7 and 2.9 and timely payment of the applicable fees, SirsiDynix grants to Customer the right to access and use the Subscription identified in the Quote solely for Internal Business Purposes and to use the Documentation in connection with such access and use for the Term. SirsiDynix shall use commercially reasonable efforts to make the Subscription Services available 24x7, except for scheduled downtime events, or emergency downtime events, or Internet service provider failures or delays. SirsiDynix will use commercially reasonable efforts to perform scheduled downtime events outside of normal business hours. Customer acknowledges that the Subscription Services may be subject to limitations, delays, and other problems inherent in the use of the Internet and electronic communications. SirsiDynix is not responsible for any delays, delivery failures, or other damage resulting from such problems. **2.3.2** Customer is solely responsible for obtaining and maintaining at its own expense, all equipment that may be needed to access Subscriptions, including without limitation, Internet connections. Customer understands that Subscription communications may traverse an unencrypted public Internet connection and that use of the Internet provides the opportunity for unauthorized third parties to illegally gain access to Customer Data. Accordingly, SirsiDynix does not guaranty the privacy, security or authenticity of any information transmitted over or stored in any system connected to the Internet. Customer shall not encrypt Subscription traffic except as may be available through the SirsiDynix VPN solution. **2.3.3** Customer is responsible for maintaining the confidentiality of all passwords and for ensuring that each password is used only by the authorized user. Customer is responsible for all activities that occur under Customer's account. Customer agrees to immediately notify SirsiDynix of any unauthorized use of Customer's account or any other breach of security known to Customer. SirsiDynix shall have no liability for any loss or damage arising from Customer's failure to comply with these requirements. **2.3.4** Customer shall be solely responsible for the accuracy, quality, integrity and legality of Customer Data and of the means by which it acquired Customer Data. Customer acknowledges and agrees that SirsiDynix does not monitor or police the content of communications or data of Customer or its users transmitted through the Subscriptions, and that SirsiDynix shall not be responsible for the content of any such communications or transmissions. Customer shall use the Subscriptions exclusively for authorized and legal purposes, consistent with all applicable laws and regulations. Customer agrees not to post or upload any content or data which (a) is libelous, defamatory, obscene, pornographic, abusive, harassing or threatening; (b) contains viruses or other contaminating or destructive features; (c) violates the rights of others, such as data which infringes on any intellectual property rights or violates any right of privacy or publicity; (d) constitutes sensitive personal information such as social security numbers, credit card information, or drivers license numbers; or (e) otherwise violates any applicable law. Customer further agrees not to interfere or disrupt networks connected to the Subscriptions, not to interfere with another customer's use

and enjoyment of similar services and to comply with all regulations, policies and procedures of networks connected to the Subscriptions. SirsiDynix may remove any violating content posted or transmitted on or through the Subscriptions, without notice to Customer. SirsiDynix may suspend or terminate any user's access to the Subscriptions upon notice in the event that SirsiDynix reasonably determines that such user has violated these terms and conditions. **2.3.5** The provision of third party Subscriptions is subject to availability from third party providers and SirsiDynix shall have no liability should such Subscription become unavailable for any reason or is no longer available under reasonable commercial terms. **2.3.6** In the event that Customer is locally hosting Subscription Software, SirsiDynix hereby grants to Customer, subject to the terms and conditions of this Master Agreement including without limitation the restrictions set forth in Section 2.7 and Section 2.9 and timely payment of the applicable fees, a limited, non-exclusive, non-transferable grant of use to locally install and use the Subscription Software solely for Customer's internal business purposes. The grant of use for Subscription Software is not a license and remains in effect only while Customer is timely paying its Subscription fees to SirsiDynix. If Customer fails to timely pay Subscription fees, Customer must immediately discontinue use of and certify to SirsiDynix the removal of Subscription Software.

2.4.1 Services. Services are described in the Quote. SirsiDynix shall be responsible for securing, managing, scheduling, coordinating and supervising SirsiDynix personnel, including its subcontractors, in performing any Services. Any change to the scope of Services must be in writing signed by both parties. Once executed by both parties, a change shall become a part of the Quote. **2.4.2** Customer acknowledges and agrees that SirsiDynix performance is dependent upon the timely and effective satisfaction of Customer's responsibilities hereunder and timely decisions and approvals of Customer in connection with the Services. SirsiDynix shall be entitled to rely on all decisions and approvals of Customer. Customer's data must be provided to SirsiDynix in a format reasonably approved by SirsiDynix or additional charges will apply. Customer shall be responsible for providing secured access to Customer's systems to SirsiDynix. SirsiDynix alone shall decide whether such access is sufficient for the performance of Services.

2.5. Software Maintenance. **2.5.1** Subject to Customer's timely payment of applicable fees, SirsiDynix will provide during the Term Maintenance services for the Software in accordance with the maintenance plan indicated in the Quote, provided however that with respect to Third Party Products, SirsiDynix's obligation to offer Maintenance is limited to using commercially reasonable efforts to obtain Maintenance from the third party owner of such Software. All licenses in Customer's possession must be supported under the same maintenance plan. **2.5.2** Updates are provided if and when available, and SirsiDynix is under no obligation to develop any future programs or functionality. **2.5.3** SirsiDynix is under no obligation to provide Maintenance with respect to: (i) a Product that has been altered or modified by anyone other than SirsiDynix or its licensors; (ii) a release for which Maintenance has been discontinued; (iii) a Product used other than in accordance with the Documentation or other than on the Operating Environment; (iv) discrepancies that do not significantly impair or affect the operation of the Product; or (v) any systems or programs not supplied by SirsiDynix. **2.5.4** For the avoidance of doubt, Updates provided under Maintenance services are subsequent minor or maintenance releases to the standard Products, excluding custom development or customizations whether such customizations are performed by SirsiDynix or by Customer or a third party. SirsiDynix reserves the right to charge Client for any reintegration work required to make customizations compatible with future releases. **2.5.5** If ordered, Maintenance must be ordered for all Software and all associated License Metrics licensed by Customer. Customer may not purchase or renew Maintenance for a subset of its licenses only. **2.5.6** If an Error was corrected or is not present in a more current release of the Product, SirsiDynix shall have no obligation to correct such Errors in prior releases of the Software. **2.5.7** Fees for Maintenance Services do not include implementation, training and other Professional Services. **2.5.8** It is Customer's responsibility to ensure that all appropriate users receive initial training sufficient to enable Customer to effectively use the Software. Failure to do so could result in additional Maintenance fees if

service requests are deemed excessive as a result of insufficient training, at SirsiDynix's discretion. **2.5.9** In the event Customer does not renew Maintenance and subsequently desires to reinstate Maintenance, a reinstatement fee shall be assessed equal to 120% of the aggregate Maintenance fee that would have been payable during the period of lapse. **2.5.10** For Software licenses and Subscription Software, Customer is solely responsible for the installation of Updates and agrees to (i) meet the Update standard set forth in the SirsiDynix Support Policies referenced in the definition of Maintenance and (ii) maintain the Operating Environment. With respect to Subscriptions, SirsiDynix is responsible for the implementation of Updates and shall no longer provide access to any previous release upon the date SirsiDynix migrates to a new Update for production use in SirsiDynix's hosted environment.

2.6.1 Hardware and Hardware Maintenance. Title to the Hardware identified in the Quote, if any, shall pass to Customer on SirsiDynix's placement of the Hardware with a common carrier or licensed trucker, which shall constitute delivery to Customer. Thereafter Customer will be responsible for risks of loss or damage, except for loss or damage caused by SirsiDynix in the process of installation. **2.6.2** SirsiDynix does not provide support for Hardware unless Customer purchases any available maintenance associated with such Hardware. Such Hardware maintenance may be provided through a third party and is subject to that third party's standard terms, conditions and warranties, if any.

2.7 License Metrics. Customer may not use the Products in excess of the License Metrics specified in the Quote. Additional License Metrics and associated Maintenance must be purchased at the pricing in effect at the time the additional License Metrics are added in the event actual usage exceeds the licensed quantity, prorated for the remainder of the then-current Term. The additional License Metrics purchased shall terminate on the same date as the pre-existing Products. Prices are based on License Metrics purchased and not actual usage. The number of License Metrics provided in the initial Quote is a minimum amount that Customer has committed to for the Term and there shall be no fee adjustments or refunds for any decreases in usage.

2.8 Reservation of Rights. All rights not expressly granted in the Master Agreement are reserved by SirsiDynix and its third party providers. Customer acknowledges that: (i) all Software is licensed and not sold and all Subscriptions and Content are subscribed to and not sold; (ii) Customer acquires only the right to use the Protected Materials. SirsiDynix and its third party providers retain sole and exclusive ownership and all rights, title, and interest in, including Intellectual Property embodied or associated with, the Protected Materials and all copies and derivative works thereof (whether developed by SirsiDynix, Customer or a third party); and (iii) the Protected Materials, including the source and object codes, logic and structure, constitute valuable trade secrets of SirsiDynix and its third party providers. Customer agrees to secure and protect the Products consistent with the maintenance of SirsiDynix's and its third party providers' rights in the Products, as set forth in this Master Agreement.

2.9 Restrictions. Unless specifically permitted or licensed by SirsiDynix, Customer shall not itself, or through any affiliate, employee, consultant, contractor, agent or other third party: (i) sell, resell, distribute, host, lease, rent, license or sublicense, in whole or in part, the Protected Materials; (ii) decipher, decompile, disassemble, reverse assemble, modify, translate, reverse engineer or otherwise attempt to derive source code, algorithms, tags, specifications, architecture, structure or other elements of the Protected Materials, including the license keys, in whole or in part, for competitive purposes or otherwise; (iii) allow access to, provide, divulge or make available the Protected Materials to any user other than Customer's employees and independent contractors who have a need to such access and who shall be bound by a nondisclosure agreement with provisions that are at least as restrictive as the terms of this Master Agreement (except the Customer may grant access to public access catalogs to library users, other libraries, and third party entities); (iv) write or develop any derivative works based upon the Protected Materials; (v) modify, adapt, translate or otherwise make any changes to the Protected Materials or any part thereof; (vi) use the Protected Materials to provide processing services to third

2.10 Customer Data. SirsiDynix disclaims ownership of any and all Customer Data, all bibliographic, authority, item, fine, patron, and other data loaded to, created and/or entered into Customer's database or supplied to SirsiDynix by Customer. Notwithstanding Customer's ownership of Customer Data, at the end of the Term SirsiDynix shall only be obligated to provide to Customer extractable Customer Data at no additional charge in a supported MARC and/or ASCII delimited format. SirsiDynix shall have the right to aggregate and retain non-personally identifiable data.

2.11 License Grant by Customer. Customer grants to SirsiDynix a non-exclusive, royalty-free license, to use equipment, software, Customer Data or other material of Customer solely for the purpose of performing SirsiDynix's obligations under the Master Agreement.

If Customer fails to make payments of any amount due under the Master Agreement, SirsiDynix will be entitled to suspend its performance upon ten (10) days written notice to Customer. **3.1.2** Unless expressly provided otherwise, amounts paid or payable for Software, Subscriptions, Subscription Software and Hardware are not contingent upon the performance of any Services.

3.2 Taxes. Customer agrees to pay any sales tax arising out of the Master Agreement, other than those based on SirsiDynix's net income. If Customer is tax-exempt, Customer agrees to send SirsiDynix a copy of its tax-exempt certificate upon execution of the Master Agreement. Customer agrees to indemnify SirsiDynix from any liability or expense incurred by SirsiDynix as a result of Customer's failure or delay in paying such sales tax due.

This provision does not relieve Customer of its obligation to make payments then owing.

10.2 Assignment. SirsiDynix may assign the Master Agreement and all of its rights and obligations herein without Customer's approval to its parent company or other affiliated company, to a successor by operation of law, or by reason of the sale or transfer of all or substantially all of its stock or assets to another entity. Failure to grant such cooperation shall allow SirsiDynix to deem the Product purchased by Customer to be fully accepted and delivered. In the event any delay in implementing Products is caused by Customer resulting in SirsiDynix incurring additional expenses, the Customer shall pay to SirsiDynix the amount of such additional expenses.

10.4 Delegation. SirsiDynix may subcontract or delegate any work under any Quote to any third party without Customer's prior written consent, provided however that SirsiDynix shall remain responsible for the performance of any such subcontractors.

Component Descriptions

Each description below relates to a quantity of one for the component. There may be more than one in this Quote.

SirsiDynix Products

BLUEcloud Visibility, Annual Subscription

BLUEcloud Visibility makes libraries' collections visible and searchable on the open Web through Linked Data technologies, specifically BIBFRAME. SirsiDynix makes MARC 21 data accessible to search engines like Google and Bing, so library collections can be searched on the Web and geographically located thus meeting library users wherever they are. BLUEcloud Visibility has the potential to place library records in front of thousands of new eyes every day. The most important way that a library can expose its bibliographic data and resources on the open web is by breaking free of the constraints of the MARC format. BLUEcloud Visibility is a product that includes; transforming MARC21 records to BIBFRAME, establishing links between bibliographic data elements and open Web data, and associating the globally-linked data with your catalog records and public discovery page. With BLUEcloud Visibility, a library's collections are positioned with open, global standardized ontologies. The web of data includes key identifiers that link to other works, websites, and resources dealing with that subject. BLUEcloud Visibility takes the mystery and complexity out of linked data. In order to reap the benefits of eyeshare and mindshare, placing your library in front of the eyes of your community members, you do not need to make massive investments in search engine optimization, understand all the intricacies of web development, or reconstruct your entire library database. You simply need to allow SirsiDynix to convert your records to their link data elements.

VPN Subscription

For those customers that require a higher level of security of data in-transit, we recommend the establishment of a VPN tunnel between our SAAS firewall/VPN appliance(s), and a customer's firewall(s) or VPN-enabled PCs. For this option, we will work with your IT organization and/or network representatives to establish a VPN tunnel from your networks to SAAS. In the event that your network topology is complex and requires additional tunnels, or large numbers of user licenses, then additional charges may apply. Unless specifically requested, the Workflows service on your SAAS Symphony instance will be firewalled in such a way that it is only available via the VPN tunnel(s). Public access to your catalog is not affected by VPN unless you require it for a private/proprietary catalog. Practical uses of the VPN include:

- Corporate / proprietary library
 - o This type of solution does not have any public access to the Symphony product, and is suitably firewalled to prevent such access.
 - o VPN is the only mechanism to provide access to the product, providing a secure entry point
 - o Note: we do support IP-based restriction on the catalog, if desired
- Consortium, distributed libraries, or .Gov/.Mil library security enforcement
 - o Uses a VPN tunnel as the only means to access the Symphony Workflows service, thus enforcing patron data encryption while in transit.
 - o Public access to the Symphony Workflows service is prevented at the SAAS firewall
- Network stabilization
 - o The use of VPN tunnels can be used to stabilize the Workflows connection over problematic networks

SirsiDynix SAAS offers three types of VPN solution. These three options can be used in various combinations to provide a suitable solution for the customer. A very important step in this is a detailed discussion of network topology between SirsiDynix SAAS network engineers and Customer network personnel. This step should be performed before SirsiDynix quotes are finalized.

- Site-to-Site VPN:
 - o This is a network-to-network tunnel that encrypts all traffic between the customer network and the SirsiDynix SAAS servers. This solution is generally the most reliable solution, the easiest to maintain long-term, and the most practical.
 - o We support both single tunnels and multiple tunnel configurations.
 - o Site-to-Site tunnels are built with the IKEv2 methodology. Various cryptographic suites are available to choose from.
- Software Client VPN:
 - o This is an installed software client on the staff user workstation which encrypts the datastream from the workstation all the way to the SirsiDynix firewall.
 - o This client is for Windows PCs only, and generally restricted to Windows XP and Windows 7
- VPN Net Extender:
 - o This is a lightweight VPN tunnel built on the SSL protocol, and is not as intrusive to customer networks as IPsec tunneling. It can be implemented with a browser or with a lightweight client software. This method also supports mobile data devices.
 - o The use of this product involves hard costs per end user and is not included in the VPN Subscription.

Caveats:

- Software VPN client use is allowed in addition to the site-to-site VPN option at no additional charge. It is useful for off-network or roaming users, bookmobiles, etc.
- SirsiDynix cannot provide technical support for the customer end of a VPN tunnel configuration. It is the customer's responsibility to obtain proper technical support for a VPN solution from their in-house IT, upstream network providers, and/or third party consulting services.
- There are practical limits to the number of software VPN client and SSL/VPN sessions that we can support per customer. Please discuss these with SirsiDynix SAAS technical personnel.
- Role-based VPN Client accounts are supported for Circulation desks only. All other users must use a unique authentication credential
- The software VPN clients supported by our firewalls is documented in the Sirsidynix VPN Powerpoint available from your Sales representative. We cannot support any of the Cisco VPN software clients, as they use a proprietary protocol.
- VPN client support for MAC users is not supported
- SSL/VPN requires single-session unique user credentials for all accounts
- SirsiDynix will not authenticate VPN against any 3rd party or customer authentication service.
