

CITY COUNCIL AGENDA REPORT

City of Anaheim FINANCE DEPARTMENT

DATE: JUNE 9, 2020
FROM: FINANCE DEPARTMENT
SUBJECT: ACCEPTANCE OF BID FOR UPFITTING SERVICES FOR
POLICE VEHICLES

ATTACHMENT (Y/N): NO **ITEM # 05**

RECOMMENDATION:

That the City Council, by Motion, accept the bid from Airwave Communications Ent., Inc., in the amount of \$103,981.90 plus applicable tax, to perform upfitting services for ten police patrol vehicles all in accordance with Bid # 9417.

DISCUSSION:

Purchasing solicited bids from known suppliers and posted the bid on the Internet. Sealed bids were received by 2:00 pm, April 28, 2020, from the following vendors and were publicly opened immediately thereafter.

<u>Bidder</u>	<u>Total Bid</u>
Airwave Communications Ent., Inc. Commerce, California	\$103,981.90
Commline, Inc. Culver City, California	\$105,500.00
Lehr Auto Electric Sacramento, California	\$107,544.00
West Coast Lights & Sirens, Inc. Riverside, California	\$118,248.70

The bid was based on upfitting ten new police patrol vehicles with the equipment required to be placed in service. The city's Police Department (APD) replaces approximately 25-30 vehicles per year due to damage and deterioration from age. Fleet Services traditionally provides this service for police vehicles to meet APD specifications. However, due to the large volume of vehicles being serviced and limited resources, there is an immediate need to expedite the service on these new replacement patrol units. It is vital for these vehicles to be placed into service as soon as possible to allow APD to continue addressing emergency situations throughout the city.

With regard to the current budget, most fleet purchases have been suspended. The ten police patrol vehicles were purchased before COVID-19 and now require upfitting services.

IMPACT ON BUDGET:

Sufficient funds are available in the Public Works Department Fiscal Year 2019/20 budget.

Respectfully submitted,

Concurred by,

Barrick L. Bartlett
Purchasing Agent

Rudy Emami
Public Works Director
